Feedback for Excellence

Participants' Feedback and Evaluation...

- ... is an **essential part of participants' engagement** in the pilot
- ... is required in order to request international accreditation after the pilot phase ends and the programme is released to the public

How is it done?

- Module leaders will set up **webinars** or **live focus group discussions** at the end of each module - participants provide continuous feedback
- **Survey results** and **discussions** generate input for elevating the curriculum to the next level of quality assurance
- Learning interactions will take place between partners, trainers, and students (**Train-the-trainer Workshops**)

Thank you for your attention
