ECO KARST FINAL EVENT

17TH – 19TH JUNE 2019

Hotel Jama, Postojna, Slovenia

ECO KARST project (Ecosystem services of karst protected areas – driving force of local sustainable development) is wrapping-up in June 2019. The final event will be the perfect opportunity to discover the synergies between nature conservation and sustainable local economic development in the karst areas of the entire Danube region.

The events will include a project conference, ECO KARST fair of pro-biodiversity businesses, and field trips to discover a number of best practices within and outside of karst protected areas in Slovenia.

More detailed programme will follow soon, in the meantime you can already register at the [link](#) below or contact saso.gorjanc@zgs.si, for any additional information.

We hope to welcome you at this exciting event and great networking opportunity,

The ECO KARST team

Project co-funded by European Union (ERDF, IPA)
